

One Security Expert Turns To Another

The Challenge

Brink's has evolved from a leading armored transportation service carrier to a premier provider of secure transportation and logistic solutions around the world. Founded in 1859, Brink's is a globally-recognized leader in business and security services serving banks, retailers, governments, mints, diamantaires, and jewelers through more than 800 facilities and 9,100 vehicles in 50 countries on 6 continents.

In 2007, Brink's became concerned with their existing infrastructure of digital video recorders in the USA. They were experiencing a large number of hard drive failures and cumbersome software issues; clearly not measuring up to the company's standard of safety and efficiency.

The Solution

That same year, NAVCO analyzed Brink's needs and recommend an upgrade program matched with national service and support, addressing both hard drive failures, uptime issues and usability. Soon after, Brink's engaged NAVCO to develop a new corporate-wide standard that included enforceable 90 day retention parameters, 98% video uptime, reliable hard drive performance, and quality video standards for all their branch locations nationwide.

The Results

By 2010, NAVCO was implementing even newer technologies and installing up-graded mega pixel cameras in selective locations. This allows Brink's to capitalize on its technology investments, designed to keep their operations and customers safe with a complete record of everyone

and every thing that enters and leaves their facilities.

NAVCO is Brinks trusted partner in providing for the design and implementation of a centralized network CCTV program in coordination Brinks Physical Security Management.

Highlights

- > NAVCO is now the CCTV provider for all locations including BGS facilities (Brinks Global Services).
- > Brinks chose NAVCO over multiple security providers because of their forward-thinking vision and customer-focused solution.

If you're looking for a business security specialist with solutions prepared for today's and tomorrow's challenges, contact us today. NAVCO...Securing Your Future.
